

# HOSTCAST

## Streaming

Microspace has been taking care of our client's communications needs for more than 25 years!

**PUT OUR NEW  
STREAMING SOLUTION  
TO WORK FOR YOUR  
ORGANIZATION TODAY!**

Small organizations as well as Fortune 500's utilize our services day in and day out.

Microspace's new HOSTCAST: Streaming solution provides secure, reliable, and cost effective streaming of your business critical video to users around the globe. The solution is extremely scalable and can support hundreds or even thousands of unique viewers.

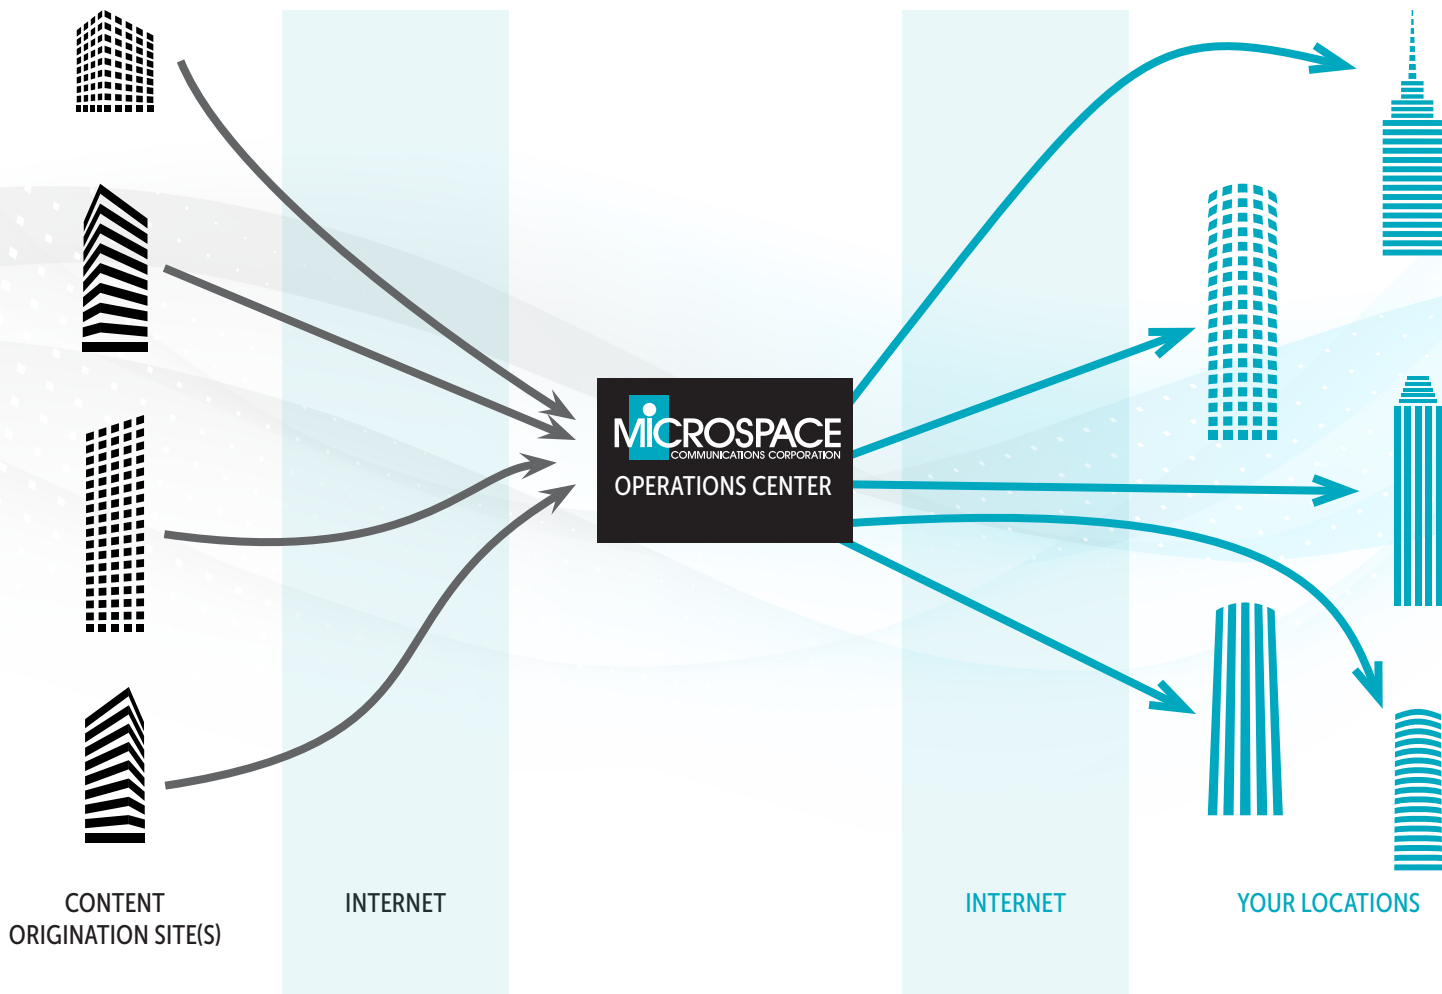

Your staff is on the move and not always in the office and available for traditional corporate communications. HOSTCAST: Streaming from Microspace delivers your video content live or on demand directly to their smartphones, tablets or any other Internet connected device. Our Streaming solution is device agnostic and supports Windows, iOS and Android players.

From higher bandwidth HD video to legacy SD business video, content is encoded locally at our facility which provides the highest quality stream as well as the highest level of service and support for your video needs.

Microspace prides itself in providing the best network management, service and support in enterprise streaming. Whether full-time, part-time, or on-demand, leave it up to us to keep a close eye on your streaming needs 24/7 to make sure each and every user has access to your video whenever and wherever they need it.
