

HostCast Corporate Video Streaming

MICROSPACE
We Connect.

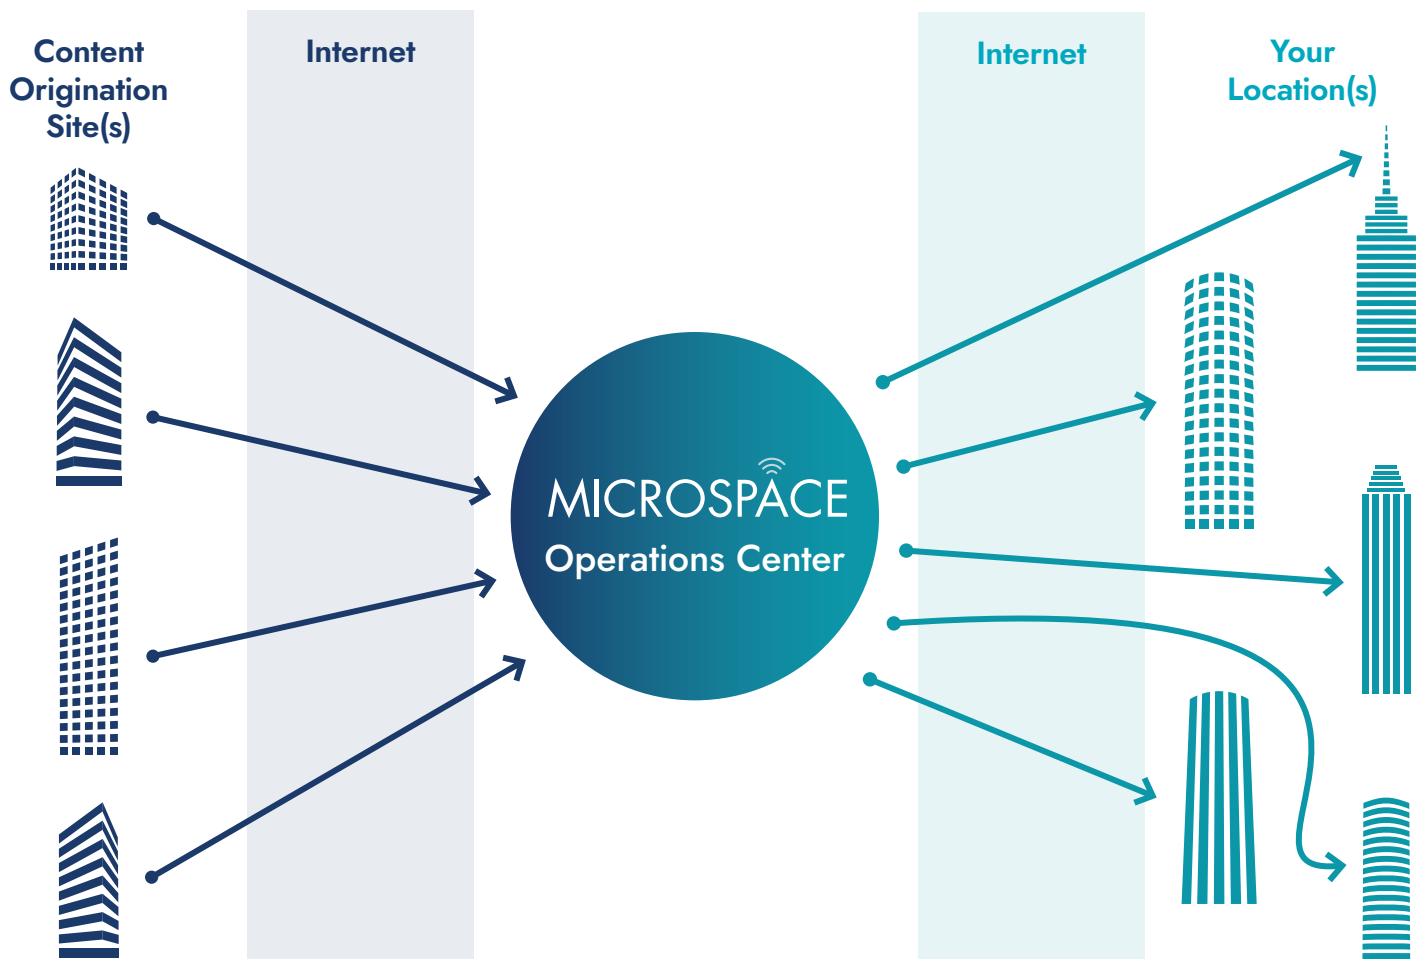

Microspace has been taking care of our clients' communications needs for more than 30 years!

Small organizations as well as Fortune 500s utilize our services day in and day out.

Microspace's HostCast Corporate Video Streaming solution provides secure, reliable, and cost effective streaming of your business critical video to users around the globe. The solution is extremely scalable and can support hundreds or even thousands of unique viewers.

Put Microspace's HostCast Corporate Video Streaming solution to work for your organization today!

Your staff is on the move and not always in the office and available for traditional corporate communications. HostCast Corporate Video Streaming delivers your video content live or on demand directly to their smartphones, tablets or any other Internet connected device. HostCast Corporate Video Streaming is device agnostic and supports Windows, iOS and Android players.

From higher bandwidth HD video to legacy SD business video, content is encoded locally at our facility which provides the highest quality stream as well as the highest level of service and support for your video needs.

Microspace prides itself in providing the best network management, service and support in enterprise streaming. Whether full-time, part-time, or on-demand, leave it up to us to keep a close eye on your streaming needs 24/7 to make sure each and every user has access to your video whenever and wherever they need it.
